

FROM HEATHER HAHN:

As requested during this morning's hearing, I am sharing information on the states that have different asset tests for applicants than for recipients. The table below summarizes that information. I also am attaching an Excel workbook that includes additional information on asset tests. All of this information is available in the Welfare Rules Databook, which draws from the comprehensive Welfare Rules Database (<http://anfdata.urban.org/wrd>).

Thank you again for the opportunity to testify on these important issues.

Heather
